# WordPress Workshop

**Lou Judice**
**TCF 2019**
**March 23, 2019**

**ROUND MOUNTAIN GROUP**
Web Consulting | Design | Hosting

# Objective

- How to get started in WordPress

- Blog

- Photoblog

- Business or Organization site

- Tips & Tricks

- Examples

# About Me

- 30+ years RCA, GE, DEC, HP - engineering, marketing, consulting, etc.

- Founder of RMG:  Consulting, Design, Hosting

- Developed 100's of WordPress sites

- 40+ sites under management:  Corporate, Government, Small / Medium Business

- TCF Board Member

WordPress is the worst system in the world for building a website.

Except for ALL of the others.

# What Is WordPress?

- WordPress is a Content Management System

- A **content management system** (**CMS**) is a computer application that supports the creation and modification of digital content. It typically supports multiple users in a collaborative environment. Examples: WordPress, Joomla, Drupal, SiteCore

- WordPress is Freely Distributed, Open Source

- WordPress is based on PHP and MySQL

- Search Engine Friendly

# WordPress

- Most popular web publishing platform

- Over 60 million sites

- Over 30% of the top 10 million sites

- Getting a site up and running (and maintaining it) is relatively easy.

- Editing content is very easy

- Mobile friendly (using responsive themes)

- Advanced features require extensive expertise

# Downsides

- Lot of overhead for simple sites

- Annoying editor

- So popular, its a hacker magnet

- Brute Force attacks

- But with care (which we will cover) it is very secure

- *If you don't plan to maintain your site and keep it up to date, get someone to do it for you.*

# How I Got Started With WordPress

# Alternatives

- Joomla/Drupal:   feature rich, complicated, good for big teams

- Sitecore: steep learning curve, expensive

- Wix: very limited, proprietary system

- Facebook: at their mercy

- ~~Google+~~  (see Facebook)

# How to Get Started

- You'll need a domain name from a registrar and a host…

- Lots out there but for getting started, I recommend wordpress.com  which offers low cost paid plans.

- Any LAMP (Linux Apache MySQL PHP) host will do

- Many hosts offer WordPress packages.

- Self hosting on your own server.

- Hire an agency or individual

# Posts and Pages

- The two most common forms of content are:

- Pages - the individual, permanent parts of a website hierarchically organized by menus

- Posts - usually chronologically ordered content of text and/or images organized by category

- Some sites are all pages. Some all posts. Or a mixture.

- Posts can be used in clever ways in non-blog sites.

# Themes

- Themes provide the look and feel of your site

- Determine mobile readiness

- Some provide advanced capabilities

- Meta themes,  builder themes, etc.

- Many are free or a nominal cost

- Pick responsive (mobile ready) themes which have a support history (ie. not ones last updated 5 years ago)

# Themes 6    **Add New**    Search installed themes...

# Plugins

- Plugins add capabilities

- 50,000+ available

- Be wary of support level, usage, version compatibility

- Plugins are a common attack vector

- Security, e-commerce, font extensions, slideshows, banners, email functions, performance etc.

# Add Plugins  [Upload Plugin]

[Keyword ⇕]  [Search plugins...]

Plugins extend and expand the functionality of WordPress. You may automatically install plugins from the WordPress Plugin Directory or upload a plugin in .zip format by clicking the button at the top of this page.

## Akismet Anti-Spam

[Install Now]

Akismet checks your comments and contact form submissions against our global database of spam to protect you and your site from malicious content.

Save Changes

# WooCommerce

- Comprehensive e-commerce solution

- Very widely used

- Free…. well not really!

- Extensive eco-system of add-ons and add-add-ons

- Subscriptions, ticketing, membership, payment gateways, etc.

- Challenging to fit complex real world business models

- Customization demands real expertise

- Never edit functions.php from dashboard

# Mail

- Mail is frequently part of a solution

- Contact forms, transactional mail, etc.

- Mail from programs is often detected as spam

- Test, test, test

- Easy WP Mail plugin to shift to SMTP

- SMTP2GO, AWS SES for business grade solutions

# SEO

- Success on the web is about balance: content, user friendliness, backlinks, mobile, social media strategy.

- There is no magic "SEO" trick to draw visitors or boost rankings.

- Old ideas like keyword stuffing and hidden text will get you in trouble.

- Plug-ins that maintain your XML Sitemap are useful

# Support Resources

- WordPress.org

- Many WordPress focused blogs

- Google any issue, you should find an answer

- rmg.llc/downloads

- This presentation + security primer

## 15 FEET

Narrative Short (USA) | 5:05

Director: Adielenah J Perez

**Synopsis**

Two people collide over a piece of paper, sending one of them reeling into a past trauma

**Community Snapshot**
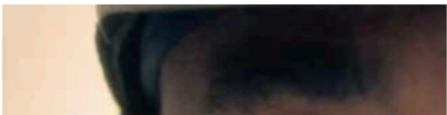

Within the military community there is a practice called a "buddy check". This is when you see a fellow soldier or vet having a PTSD moment or episode and you connect with them to bring them back to reality. That is what this film is about.

https://savethewheel.org

# #savethewheel

## Join our effort to restore the iconic Red Mill's wheel to operation and support our capital campaign

PRESERVING THE
LEGACY AND
STORIES OF THE
FAMILIES WHO
LIVED AND

https://savethewheel.org/donate/

# Donate

Since its opening in 1963, the charm and beauty of the Red Mill Museum Village has drawn hundreds of thousands of visitors to Clinton, New Jersey. It is said to be the most photographed building in New Jersey and one of the top ten in the nation.

Besides offering the public a glimpse of working life in days past, the Mill also owns thousands of pieces of textiles, home goods, tools, photographs and more. We are proud to maintain our local history and heritage and share this with the public. Thousands of school children visit each year to tour the grounds, make candles, learn about blacksmithing and try their hand at quill writing.

Annually we host many events including War Reenactments, Agro-Industry Day, Kids' Day, Ghost and Folklore tours, live concerts and the ever-popular Haunted Mill.

And now we are asking you, our friends and fans, for some assistance. You may have noticed that the wheel has not been spinning for some time now. We believe a functioning waterwheel adds to the unique charm and appeal of our historical treasure. We need your help for this and other preservation efforts. Our goal of **$250,000** is lofty, but **fully achievable with your support** and dedication to helping us.

The Red Mill Museum Village is a privately funded 501c3 non-profit organization that relies on the generous support of donors like you. Please donate and together we can **#savethewheel**!

If you would like to make a larger donation, recurring donation during the campaign, or payments on a donation amount please contact our Executive Director Paul Muir at (908)735-4101 x101 or **director@theredmill.org**

## Furry Tail Endings Adoption Application

Thank you for your interest in adopting a dog rescued by FurryTail Endings Canine Rescue (FTECR). FTECR wants to make certain that every animal adopted goes to a loving home where it will be well cared for. Because of this, our application asks a number of detailed questions which are necessary for our screening process. FurryTail Endings Canine Rescue is an all volunteer rescue that does not have a shelter. All animals are placed into loving foster homes until they find their forever homes which could be located anywhere in NJ.

* Adoptees must live within a 75 mile radius of Flemington, NJ.
* Adoption fees are $375 for Puppies up to 11 mos & $325 for Dogs 1 yr & older
* All information will be kept confidential.
* Personal references may not be family members.
* If you have any questions, please email us at furrytailendings@embarqmail.com or use our contact form.
* Please allow up to a week for processing your application.
* Thank you!
